Hidden Objects Scenes

With a particular mastery in hidden objects games, we design captivating backgrounds and flawlessly rendered items, creating an enchanting visual journey.

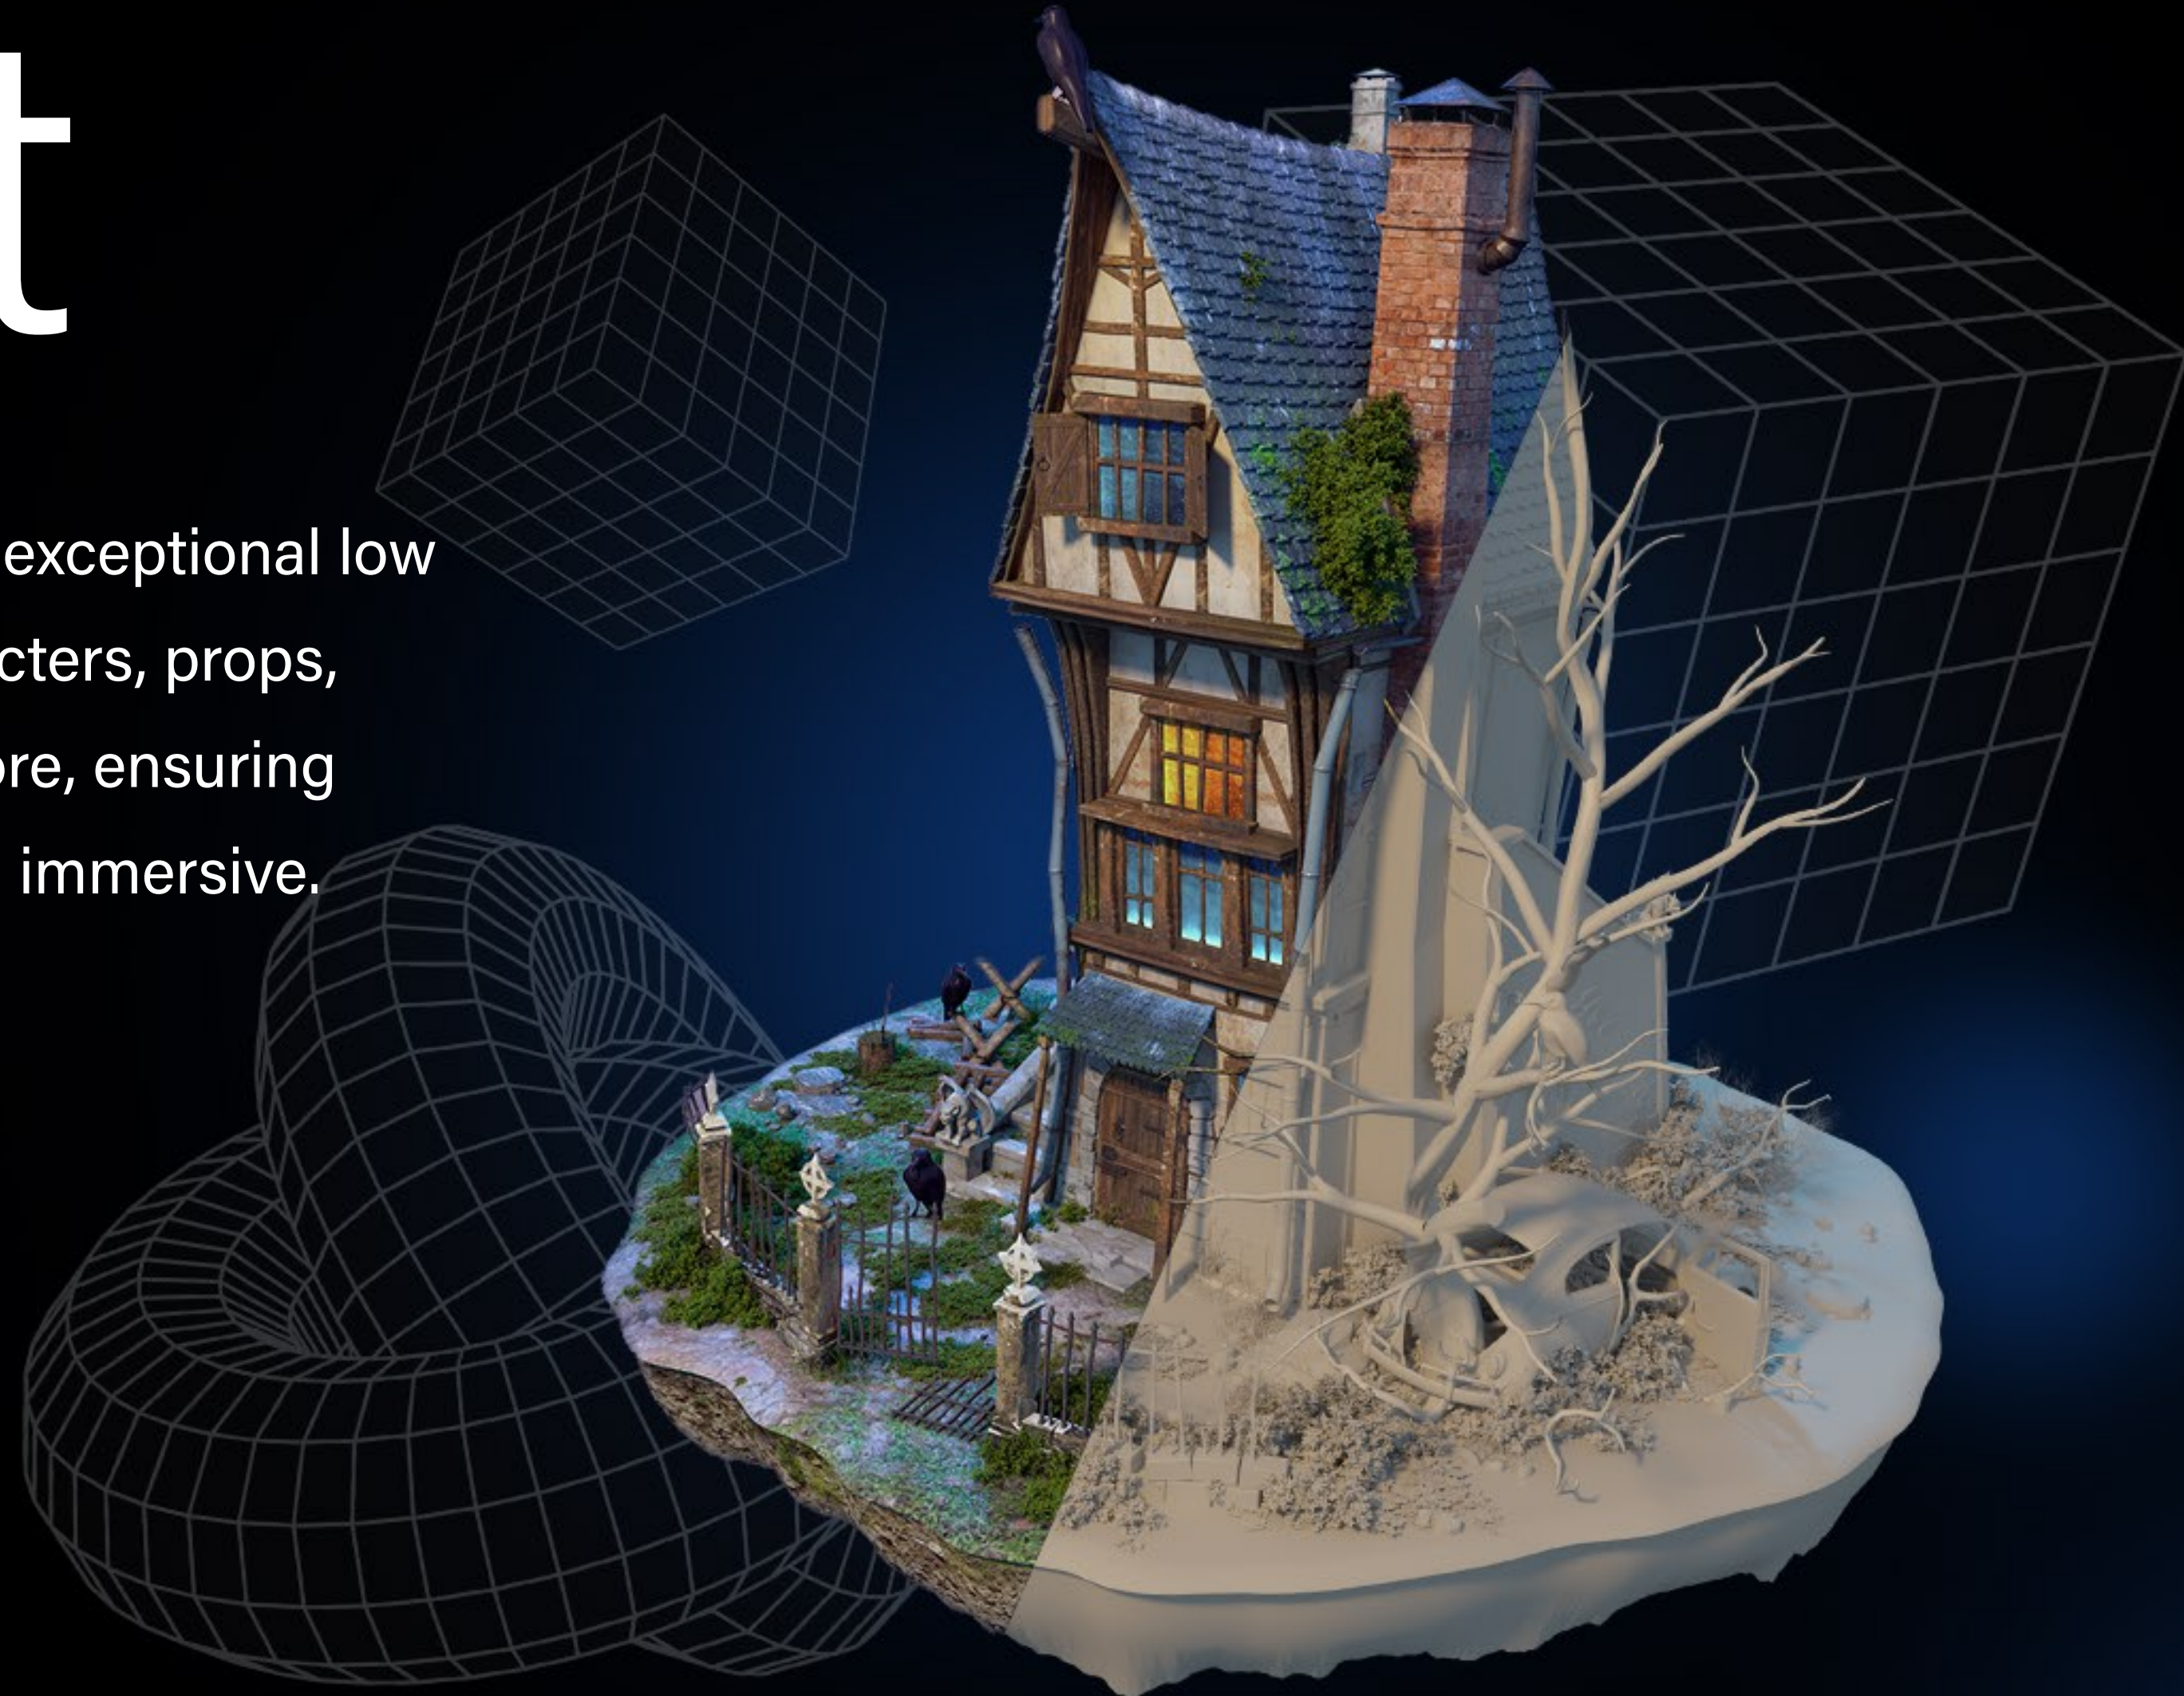

2D Art

Our core strength is 2D art, where skilled artists with extensive experience cover various styles, including casual art, isometric design, maps, props.

3D Art

Our expert team specializes in creating exceptional low poly and high poly 3D models for characters, props, buildings, weapons, armor sets, and more, ensuring your game visuals are cutting-edge and immersive.

Character Art

Breathing life into unique personalities, we will transform your characters into one-of-a-kind masterpieces with our unparalleled art solutions.

Concept Art

Compelling concept art sets the tone for the entire production. Our creative approach helps to convey your vision and ensure your project stands out.

Slots

We use our knowledge and skills to craft a visually rich design for your social casino games, covering symbols, icons, logos, frames, and essentially any elements you require.

Casual Mini-Games Art

We create all the necessary elements customized to fit your unique ideas, using our expertise in hypercasual projects, specializing in puzzles, bubble shooters, or match 3 games.

Animation

We create a unique gaming world with the mesmerizing animated backgrounds. Whether it's stylized or realistic games, our visuals add an extra layer of excitement, making gameplay truly immersive and enjoyable.

UI/UX Design

Emphasizing the importance of high-quality UI/UX, we consider it the core of every project, ensuring a positive user experience by creating innovative and engaging user perspective.

Our Team

Our project managers carefully listen to your needs and share them with our team. The art team then brings your project to life, adding their creative touch. This organized approach ensures the success of your project.
